

Mafia

government, military, law, police

The Mafia is one that is deliberately humanly criminal and implementing the majority of men, women and children.

First time the word Mafia is used in a post, a letter, a video or a journal it must be supported by: government, military, law, police like this

Mafia (government, military, law, police)
the succeeding words **Mafia** can stand alone.

Government

Governments are fundamentally deliberately humanly criminal. They are taking the ownership of nearly all men, women and children as soon as they are officially given name and family name. You have probably noticed each time you get a letter from the authority your name is with all capital letters.

BO PETERSSON and AGNETE JENSEN is two examples. That is because you are dead, yes dead but, there is a person called Bo Petersson and Agnete Jensen who are responsible for BO PETERSON and AGNETE JENSEN. The reason you are dead in the Mafias eyes is that they can use as a commodity as a tree or machinery.

Military

The military is equal to the government in the terms of fundamentally deliberately humanly criminal in particular when high on straw. There are very fine men and women among the soldiers too. The Home Guard is generally excluded from from the Mafia.

Law

The law is equal to the government in most countries. In praxis the law is chosen by the government and the law can remain until he or her dies. There is some good lawmen but, the majority serves the Mafia.

Police

Sadly the police has gone into a member of the Mafia too in nearly all countries. There are fine policemen but, the majority is with the Mafia.

Bank

The Bank is above the Mafia.
