

2024-02-17

To Police Ljungby

A flying machine was polluting the sky, possibly without knowing it.
Picture was taken 2024-02-17 15:38.

It is no condense track, as that goes away within a minute or two.
The plane has probably passed within 5 to 20 minutes. It is likely to have passed Ljungby.

Please notify the plane that smoke came out.

Yours sincerely
Carl Friis-Hansen
